

State Project No. H.005403
F.A.P. No. H005403
Hooper Road Extension
Route LA 408
East Baton Rouge and Livingston Parishes

Q1. The RFQ for the captioned project states that “Air quality analysis for CO will be performed, for all build alternatives, using the latest EPA models.” EPA is moving toward implementation of MOVES to replace MOBILE 6. What will be the DOTD’s position on use of MOBILE 6 which is the approved model at this time.

A1. The Consultants can use MOBILE 6 or MOVES. They can use any EPA approved model (there are some other EPA approved models for use).
